Soldier Letters.

May 31, 1919.

NEW LINES FROM A SOLDIER WHO WAS OVER IN FRANCE.

Folks and friends in Texas:

Well—I am back in old U. S. A. and will tell you all a little of experience in the army. Well, I was drafted in May 1918 and also got notice that I had to leave Hondo. I left Hondo on the 1st of June. I was with the 1st. Monroe Haass, Chas. Folk and myself were to leave that day and were told that we were going to Lee, Virginia. Well, we talked this going there and wondered if we were going to do. We thought we might get some kind of a range to work with horses. Well, we got there and when we got to the camp we saw thousands of soldiers. We then that there wasn't such a for us. We got some drilling and were sure enough drilled us like some work but we soon got used to it. The Captain told us that was no such a thing in the army as "don't do it", and there isn't for us always a way.

Next morning we were all lined up. The Sergeant asked for everybody to shoe horses to step forward. We had to have 8 men and 14 horses but only 8 of them were and I was one of them. From 11 to 12 I went to the Remount every day from 7 a. m. till 4 p. m. We had a big shop and had to shoe and mules; and were given all of instructions about shoeing. There were 53 men working there and to shoe all kinds, some lying and some in stalls. There were some mean sons-of-guns. I stayed at that camp for 8 weeks. I left Camp Lee July 25th. at 5 p. m. We were 1800 in all; marched down the James River which is 8 miles from there and the Red Cross were along the street and served cake, candy and chewing gum. I stayed there for an hour and got on a small boat at 11 o'clock that night and sailed till 7 o'clock; went down the James River. We got off of this boat and went out to a big park about 1 mile there and were lined up and marched back to the seaport at 11 o'clock. News, and got on the big ship at 8 o'clock and left there at 10 o'clock for France. There were submarine chasers with us for and they went back the second day from there 4 more big ships. They came from New Orleans. In all there were 3 big ships. On Aug. 4th at 6 o'clock the submarine chasers met us and one but it was tied to one of the and they sometimes let it go to find out whether anything was right. They were always on the out along this place. And a dangerous zone, 6 of the vessels were sunk there the day ago. We also had a drill ship every day. This was done nothing should happen every day had to know his place and raft had to wear our life preserver (goose yokes) at all times and keep with our clothes on all over to be ready to fall out at night. But we were never called out, but there wasn't much

chance to sleep as it was awful rough; the ship rocked so we couldn't hardly stay in bed.

After 6 o'clock all lights had to be out and no smoking allowed, and no one was allowed to wear anything white. We had a moving picture show every evening to pass away the time. Had three meals a day but of course it wasn't no hotel. Well everybody was out on deck most of the time looking around but couldn't see anything but water and sometime could see some fish jumping out of the water. They looked as big as a horse. Some they called the white flying fish, they would get up and fly for about 20 ft. and were about 8 ft. long; and another kind about 10 ft. long this was a black fish and had a real hog face. We had some rough sailing, the 7th day the waves would sometimes splash over the top deck. With all the water we could see for miles wasn't fit to drink and not even fit for a decent wash. Lots of the boys got sea sick going over, yes and I was one of them. Could hear them calling, (New York) all over the ship; guess everybody knows what that means. We had to take a shower bath every day and it was so cold that a fellow almost froze. We sailed on the ocean for 11 days and nights and I was sure glad when we got off of the water. We landed on Aug. 6th. at a place called Brest, France, a big shipping point.

We were unloaded Aug. 7 at 7 o'clock and then marched to a Rest Camp about 5 miles from Brest, but this wasn't much of a Rest Camp, we had to work there day and night unloading coal. We had planks for beds there, (pretty rough). We stayed there 5 days. Well, I was anxious to see France and I was over there about 10 months, but I was ready to come back the next day after I got there.

Will now tell about some things I saw while over there; The first was a train and a little engine it looked like one of these little peanut roasters, and the next was some little kids running around there wearing some big wooden shoes; well that looked mighty funny to us. When I first heard them coming I jumped out of the way I thought it was one of those big old Government mules shod around. Those old French are so far behind they can't hardly drive a horse. You will always see them working either 2 big oxen or 2 horses and one ox all ahead of each other and always walked aside of their team. They would hardly ever use a line, but they made enough noise; it sounded like somebody driving a bunch of wild cattle. We left this place on Sunday at 12 o'clock. We got on the French train, the best we could get was box cars, and they were only about half as big as the U. S. cars and there were 40 men in each car, and were packed in there so tight that we couldn't turn around. Well, we rode this train till Monday night at 11:30 and had to stay in the cars till next morning at a town named Paris. At 8 o'clock we left there and rode again till 4 o'clock and there we were all unloaded and split up into 3 different parts 150 men at one place and the other 150 were split up into 75 men to each part, I was in one of the 75 and stayed at a small town—Mourmont. The second day we got in 100 head of horses that had

(Continued on last page.)

Representative Hornby Visits Home Hygiene and Care of the Sick.

Hon. H. P. Hornby of Uvalde was a visitor to Hondo Thursday. He was on his way to Austin to serve on the House Appropriation Committee, which meets ten days prior to the call session of the Legislature beginning June 23rd.

Mr. Hornby said several stockmen in Uvalde county desired to have Uvalde county placed in Zone 3 of the tick eradication law so they would get an additional two years in which to clean up. Uvalde and Medina counties are in Zone 2, while all other counties east on the Southern Pacific and all counties to the south are in Zone 3. All stock moved into Medina and Uvalde counties from the south and east would have to be dipped and held in quarantine the prescribed time before they could be allowed to cross the line. As Bexar county is in No. 3 it would straighten out the line to include Medina and Uvalde counties in that zone. A bill was introduced in the last session for this purpose did not come up in time for passage. Mr. Hornby would like to hear from the stockmen of Medina county as to their views on this measure, as to whether they want to remain in Zone 2 and clean up by January, 1920, or get into Zone 3 and have an additional two years, at the end of which time the whole state would be clean.

In speaking of other matters, he stated the general appropriation bill would be passed at this called session; the board of control bill would be up for amendment; laws putting into effect the prohibition amendment would probably be passed, and he looked for the Governor to submit other measures. The session he thought would last all of 30 days.

The conservation of the health of our people, whether in time of war or peace, is a national service as well as a home duty.

The prevention of contagious disease is almost entirely a matter of home hygiene and the responsibility for the maintenance of civilian health must be borne in the immediate future more and more by the women in our homes.

The shortage of graduate nurses, due to their necessary withdrawal for military service, is not a temporary thing, to be remedied immediately upon the signing of the treaty of peace. The services of American nurses will be utilized, it is hoped, in helping to rebuild the health of European countries. Also, as the war will have left many men who have rightly first claim to institutional care here in the United States, hospitals must minister largely to those chronically or seriously ill, or in need of surgical attention. Those nurses who do return to civilian duty will be needed far more in community and public health service than in the care of individual cases.

That the women of the country are not adequately prepared, in the absence of professional care, to safeguard their homes from contagion, and to nurse their families in case of minor illnesses has been only too evident in the recent influenza epidemic which had a casualty list of over four hundred thousand in the United States.

This epidemic which swept over the world weakened by war burdens resulted in a terrific sacrifice of civilian life, taking a toll of approximately five million victims.

Another striking argument for a further extension of health education has been brought out by the rejection for service under the Army Draft of nearly one-third of the men called for examination, on account of physical defects, a large proportion of which might have been remedied had compulsory school examination and medical attention been a recognized policy of the government years ago.

To further universal health education and protection, the Red Cross is urging the extension of its course in Home Hygiene and Care of the Sick, and believes that this instruction should be available to every woman and girl in the country. This course is not intended or expected to prepare women to assume the responsibilities of a graduate nurse in a case of serious illness, but it does fit them to care for minor illnesses and emergencies occurring in every household.

The local Red Cross Chapter is arranging for a course of instruction in nursing, under direction of graduate nurses, at the Red Cross building and it is the wish of those having the matter in charge that every lady in Hondo who can do so attend. It will be free, the only cost being the text book which is only forty-five cents. Those desiring to register for the course can do so at either of the drug stores. This is an opportunity of which every lady and girl who can should avail themselves. The course is open to any one in the county, town or country.

All members of the Red Cross or any one interested in taking the training course in nursing are requested to meet at the Red Cross building Monday afternoon at 5 o'clock to make the final arrangements.

Notice to Farmers.

All those who have oats to thresh will please have wood close by, about 1 cord to 30 acres.

DICK SCHWARZ.

AT WINDROW'S A Talcum That Delights the Skin

IMAGINE a talcum as fine as mist, scented with a perfume of distinction and rare charm—a talcum free from any irritating particle, but having instead an almost incredible smoothness—why, there you have a correct definition of Garden Court Talcum.

The package is handsome in its simplicity of design in which the "Nelson blue" is dominant; but much more important is the fact that the powder itself is all that it should be—smooth, soothing, satisfying, and marking a standard of excellence seldom if ever hitherto attained. The richness of its scent is due entirely to the Garden Court perfume blended from thirty-five flowers and perfectly balanced. 25 CENTS AT

THE SHADOW

By ANNIE A. CURTIS.

(Copyright, 1919, by the McClure Newspaper Syndicate.)

Mollie Harrison, with dark curly hair, bewitching brown eyes and known throughout the village of Bend as "the prettiest girl in town," settled herself snugly in the big morris chair with her knitting in her lap. Had it not been that she, too, knew of her beauty, her personality might have been equal to it. But Mollie, with her lovely clothes, had always considered herself a little above the other girls of her community and associated with but one girl. That girl was Hazel Jaynes, daughter of the only physician in the town.

"Oh, horrors!" said Mollie to her mother, looking out the window, "here comes that Dick Holmes. I suppose he will stay all the afternoon."

Just then Dick rang the bell, and Mollie's mother ushered him into the parlor where Mollie was sitting.

"Why, hello, Dick, I didn't expect you this afternoon," said Mollie. "I have the afternoon to myself, so I decided I would spend it with you," replied Dick. "I have been very busy; I am knitting a sweater." "I suppose it is for that 'fellow from the city,'" said Dick, laughingly, as he handed her a large box of chocolates. "Thank you, Dick, but I have eaten so many sweets today I believe I will keep these until later," and Mollie placed the box on the piano.

Their conversation was pleasant until Dick said, "Now, Mollie, I would like to talk with you on a very serious question. I love you and ask you to be my wife. I think I have sufficient means to make a home for you. Will you take the question seriously and decide the matter?" Before leaving, Dick invited her to attend a ball with him the following evening.

After Dick left that evening, Mollie had a long talk with her mother concerning Dick's welfare. Mrs. Harrison approved of Dick's company and considered him a gentleman in every way.

"I am going to test his love for me some day, mother," said Mollie, haughtily. "Remember, Mollie, that may mean a broken heart," said her mother in a thoughtful tone.

The next evening, Mollie, as light-hearted as a bird, dressed for the ball. Her gown of deep pink with its silver trimmings brought out her beauty as never before. Although there were girls from far and near, Mollie was the loveliest. All went well until Mollie refused Dick the "Good Night" waltz and gave her order to the "fellow from the city." However, Dick in a good-natured way overlooked this and enjoyed the waltz with Martha Irving, whose gentle manner had always pleased him. When Dick left Mollie at her home that evening he asked to spend Friday evening at her home, and, to his great surprise, Mollie said she would be pleased to have him. Little did he realize Mollie's deceit and what a reception he would get.

"Mother," said Mollie, "I can never think enough of Dick to marry him. My nature calls for a man of different nature."

"Well, dear, if that is the way you feel, tell Dick so and do not keep him in suspense," replied her mother.

"He will find out soon enough," said Mollie, as she tossed her head pertly.

Friday evening, Dick who was as true as his word, entered the yard at Mollie's home and noticed a light in the parlor. What did he see? Could he believe his own eyes? For there was the shadow of Mollie and a masculine figure with his arms around her, embracing her. "It's the 'fellow from the city,'" said Dick, as he turned and walked toward his home. Then Mollie's suitor took off her masculine dress, and the tears rolled down her cheek as she laughed at her success.

"Perhaps he thought your gentleman friend very impolite not to remove his hat, but my hair would have given me away," said Hazel Jaynes.

"Hazel, you're a trump. I bet he will never come to see me again," said Mollie.

About a month later Mollie read the announcement of the engagement of Richard Holmes and Martha Irving. But as yet Mollie has no other suitors, because she is known as "tricky," and she now realizes that her mother was right when she told her she would have to suffer the consequences.

Dialect Was Once Good English.

A dialect is folk-speech, a form of the mother tongue spoken by people of native stock, long settled in the district where it prevails. It is of quite an ancient and respectable descent as the accepted speech. Accident has reduced it to the condition of a local or provincial idiom. It has diverged from the standard literary language, or the latter has diverged from it. For dialects, as is well known, are conservative, and cling to many vocabularies, inflections, syntactical usages and pronunciations which are nearer to the primitive tongue than those which have displaced them in the accepted speech.

In a Minute.

We do a good many things in a minute. For instance, we are whirled on the outside of the earth just 13 miles and have gone around the sun 1,089 miles; a ray of light has traveled 11-100,000 miles; the lowest sound your ear can catch has made 390 vibrations; the highest tone, 2,280,000 vibrations, and \$65 worth of gold has been extracted from Mother Earth.

Who Is Best Man To Do Your Work?

The best way to have anything is—do it yourself. The best way to get ahead in the world is—save regularly and invest wisely. Your children may be buying Thrift Stamps but the nickels and dimes and quarters they are able to save won't buy a home or a new automobile or a new cultivator. The money to do that will not be saved—unless you save it.

It's easy enough to save if you do it the W. S. S. way. Quarters planted in Thrift Stamps grow into War Savings Stamps and the interest makes them grow like rain does a summer weed. Save for that happy opportunity. If you're not in a War Savings Society—get in one. Be with the crowd. Save.

Have you bought your Thrift Stamp today?

—W.S.S.—

Farmers Find Easy Method of Saving

Farmers who are making a habit of getting a few Thrift Stamps every time they market anything from their farms are finding that they are able to save regularly and that they do not miss the small amounts invested. The average farmer in this section of the country depends largely on his "money" crop, which he harvests once a year. Almost every one of them, however, grows something else which he markets at odd times.

An occasional load of hay may be taken into town and sold. The thrifty farmer also plants peas, beans, okra, lettuce, beets or some of the other vegetables which thrive in the South-west and for which there is a ready market. Butter and eggs form staple articles to be marketed between seasons. By buying just a few Thrift Stamps each time the farm-wagon makes a haul to town, the farmer or his wife is providing a fund which they will be able to turn to good account later on, for when these Thrift Stamps are exchanged for War Savings Stamps, they increase in value automatically, and may always be turned into cash on ten days, written notice to the postmaster, although the longer they are kept the more they earn.

Fault-Finding.

Why should we denounce fault-finding because it is not constructive? All of us are continuously finding fault, more or less, and on our success in finding the fault and destroying it depends mostly our successful development. So in the end it appears that fault-finding is essentially one of our most constructive activities. One of our worst faults is the hypocritical practice of finding fault with fault-finding.—F. H. Young in Providence Journal.

JOYCE COX

Boy Scout in the Eleventh War Savings District can a Treasury Achievement Button Ace Medal and have bronze, and gold palms on his medal if he will do as much as Joyce, Boy Scout of Cameron, Texas. had sold almost \$6,000 worth of Savings Stamps up to May 1, 1919. Achievement Button represents of War Savings Stamps to five individuals. The Ace represents total W. S. S. sales \$100. A bronze palm represents additional \$100, a silver palm an additional \$1,000 and a gold palm additional \$5,000 in War Savings Stamps sold. "I'd like to see every Scout in the District wearing palms on his medal ribbon by the end of the year," said Frank M. Federal District Director of War Loan Organization. "What he has done others can do. One of the best War Savings Societies in the District is in the Boy Scout at Tallulah, La. There ought to be a Savings Society in every town you bought your Thrift Stamp

W. S. S.

External Orders Strong For Saving

External orders should take an interest in the 1919 Savings Campaign in the opinion of Pat M. Neff, Grand Chancellor of the Texas Lodge, Knights of Pythias. An enthusiast over the Savings Campaign is J. W. Chancellor of the Grand Master of the Texas Lodge, Independent Order of Odd Fellows. "The Savings Campaign," Mr. Neff recently, "the Government has the stamp of its approval on external idea. War Savings Societies are not lodges, strictly speaking, but they are next thing to it. One of the most successful Savings Societies are in the lodges and the Knights of Pythias are doing their part."

The Odd Fellows had a number of War Savings Societies last year. Mr. Chancellor said, "and most of them made excellent records. If possible, it would be a fine thing for the members of the lodge to get themselves into a Savings Society this year. If they have not done so."

Numerous lodges of various orders in the Eleventh Federal District not only have Savings Societies but are sinking funds by investing in Savings Stamps as a lodge. The members of these lodges are also buying W. S. S. individually. Have your lodge been organized?

W. S. S.

Successful Dollar Is One That Works

A dollar that goes to work is the successful dollar. The idle dollar is the unsuccessful dollar. The successful dollar brings back a dollar with it. It makes a dollar and something—two dollars and something—a whole family of dollars.

A careless dollar goes off some day and is never seen again.

A Texas man the other day lost a dollar's savings—\$726.00. His dollar had gone off in the pockets of the stock promoters. He had lost his dollars to keep good by.

Years of years ago a man to a handful of dollars had been buried them in a napkin. He had increased—he did not even keep a dollar. One might as well have a dollar that succeeds is energetic and careful. War Savings do more than save your dollar; they put them to work at 4% interest. And they never fail. Your investment guarantees every one of you bought your Thrift Stamp

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

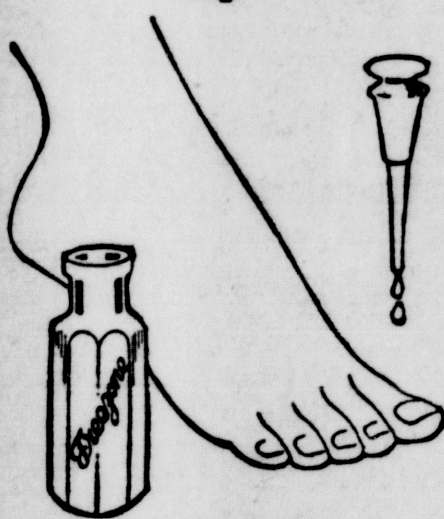

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

TAKING NO CHANCES!

By investing your money in War Savings Stamps, you are taking no chances. The Government guarantees their constant increase in value and that you can always get what you have invested, with accrued compound interest, on ten days' written notice to the postmaster. But if you hold them to maturity they are worth the most. 1919 W. S. S. mature in 1924. Save!

W. S. S.

NAPOLÉON'S MAXIMS OF WAR

Rules Laid Down by Great Soldier Were Followed Almost Literally by General Foch.

Napoleon was a prolific war maxim-maker. His maxims number more than a hundred. Many of them are as true today as when they were made, observes London Answers.

"In war," said Napoleon, "there is never more than one favorable moment. The great art is to seize it and use it well."

Foch seized the "favorable moment," and in a month not only saved the situation, but turned the tables on the enemy. He "concentrated his troops and acted with energy," as Napoleon laid down.

Commonsense—the application of wisdom to circumstances—is Foch's maxim, as it was Napoleon's. Napoleon has written: "Plans may be modified ad infinitum according to circumstances, the genius of the general, the character of the troops, and the features of the country."

Napoleon insisted upon the study of past campaigns. "The science of strategy," he said, "is to be acquired by experience and studying the campaigns of all great captains."

Foch has been a lifelong student of military history. In the spring he was acting up to Napoleon's dictum—"the measure which is not profoundly meditated in all its details produces no result." When Foch was ready he "dared at the right moment." For 20 years past Foch has been "profoundly meditating" the details of the strategy which has given him such signal success.

RANK HIGH IN POLITENESS

Belgians Unable to Forget Courtesies Though Death in Appalling Form Was Imminent.

The Belgians are the most polite people in the world. Yesterday seven correspondents traveled to Audenarde. We were informed that we might cross the Escaut and proceed in the direction of Ghent. As our two motor cars came over the ridge before entering the town they were spotted by an eagle-eyed observer in the German lines, and as we reached the entrance of the town and left from our cars, preparing to enter on foot, a shell whizzed over our heads and exploded dully in a rain-soaked field 50 yards beyond the road. Another followed about the same distance short. Then they came so fast that I lost count. Gas shells they were, and we donned our masks and made for the cars.

The lieutenant in charge of our party bowed to the oldest correspondent and bade him enter the car. The latter, being Belgian, in turn bowing to his neighbor, motioned him into the car. He demurred, and then followed some Alphonse and Gaston moving pictures until someone motioned to me to enter the car. I did. Then they all piled in. And as we raced down the road two Thielts shells spitefully splattered along the muddy road.

Amethysts for Mourning.

Amethysts will be much worn in this country during the post-war period as mourning jewelry. Amethysts and jet are the most widely used mourning stones. The vogue of amethysts in the mourning was fixed after the Franco-Prussian war, when the gems became popular in France and Germany.

An abundance of good amethysts are found in the mountain region of the western United States. The best amethysts come from Cambay, in India, from Ceylon, Persia and Siberia. There are also large amethyst mines in Uruguay. The war, which curtailed imports of all gems to the United States, gave American amethysts a wider market than they ever had before.

Mexico seeks to be admitted as a member of the league of nations.

Good Reason for Leaving.

"Have you had any experience in newspaper work?" said the editor of a large paper to an agitated little man who had applied for a job.

"I should just think so. I was editor of the Middlesbury Mail until yesterday."

"And what made you leave the paper?"

"Well, it was like this: The chief of police down our way was supposed to be a dangerous man with a revolver, and so I tried to keep the right side of him. I wrote a paragraph about him, and said he was Middlesbury's greatest asset. The intelligent compositor, of course, left out the 'et' in 'asset,' and that is how it got into the paper."

Gas From Wheat Straw.

One of the scientists of the University of Saskatchewan, who has been experimenting for some time with the manufacture of gas from wheat straw, has been able, by a gas bag attachment of 300 cubic feet capacity, to run his motorcar with perfectly satisfactory results. It is estimated, says the Saskatchewan Herald, that a ton of straw will generate 11,000 to 12,000 cubic feet of gas and that 300 cubic feet of gas is equal to a gallon of gasoline, so that with this hitherto waste product on his hands the farmer will be able to run his car.

Wonderful.

"I like the 'Three Musketeers.' It's a remarkable book."

"And there's the sequel, 'Twenty Years After.'"

"Yes; it is wonderful, too. What impresses me most is that all the principal characters still have the same servants." — Louisville Courier-Journal.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Only ONE out of 147 does it!

There are actually, over 147 brands of cigarettes sold in this country. But, not one of them does what Chesterfields do, for Chesterfields do more than please the taste—they touch the smoke-spot—they let you know you are smoking and—they satisfy!

It's all in the blend—a blend of fine selected TURKISH and DOMESTIC tobaccos—just the right kind and the right quantity of each.

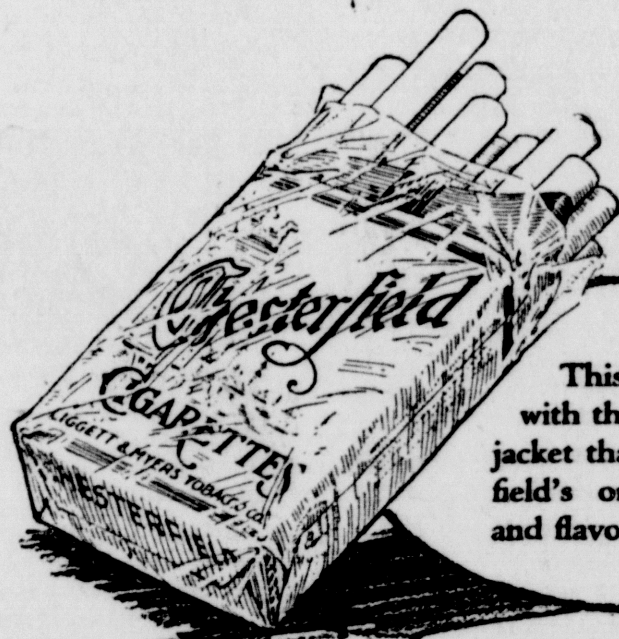

There never was a cigarette that grew faster in popular favor because no cigarette ever gave such value.

Prove it! Smoke a Chesterfield fresh from the moisture-proof package.

Mr. and Mrs. Estes Crabtree, after a visit to relatives and friends here, left the first of the week on their return to their home at Moreza, Arizona.

Miss Delilah Thompson and Miss Agnes Reeves of Stockdale visited Mrs. Thompson's sister, Mrs. E. Schneider, and family this week.

Mrs. H. G. Henderson and daughter, Miss Isabel, Miss Kate Henderson and Miss Nettie Newton left Monday for Austin where they entered the summer school at the State University.

Mrs. S. G. Carter, Miss Willie D. Fly and Miss Hulda Muennink left Monday to attend the Epworth League meeting at Corpus Christi.

Harry Crouch made a business trip to San Antonio Thursday evening, and reports he has some fine cotton and watermelons on his farm close to San Antonio.

Geo. Bendele, Jr., after a couple of days' visit to homefolks returned to San Antonio Tuesday where he is taking a course in a commercial college.

United States Deputy Marshal J. A. Rogers and Mrs. Rogers and daughter were here from Waco Sunday the guests of Marshal Rogers' brother, C. C. Rogers, and family.

W. F. Shaw of Mercedes was a between trains guest of his sister, Mrs. Chas. Metzger, the first of the week—arriving on the 3.30 o'clock train and leaving on the 6.42 train.

Frank Westfall, wife and mother went to San Antonio Thursday to visit Louis Geuea, a young soldier recently returned from overseas who is now confined in the base hospital, Fort Sam Houston.

Alfred Schulte, a soldier boy recently returned from overseas, came out from Fort Sam Houston the first of the week on a visit. He has not as yet received his final discharge from the service.

For Sale.—On account of leaving Hondo Miss Mollie de Montel is offering for sale cheap her large collection of potted plants. First come can get first choice. Call at the home of Mrs. H. B. Taylor, see the assortment, and get prices. 1f.

STRAYED—From my place 4 miles south of Yancey one large Durham cow about 10 years old, crumpled horned, no mark, brand on left side W., color brindled or mixed color. I will pay a reasonable reward for any information leading to her recovery. N. W. WARD, Yancey, Texas. 45-4t.

Hay wire. Holloway Bros.

Walter H. Jersig, doing missionary work for the Swedish Cream Separator Co. of Chicago was in town one day this week and was a pleasant visitor at this office. Mr. Jersig has been actively identified with agricultural interests in the Lower Rio Grande Valley section of the state for years passed, doing his mite for success of the farmers in every branch of agricultural industry, hence his present endeavor, for what could be of more importance than the encouragement of dairying among the rural people?

J. J. Moehring was in town one day this week and was a pleasant caller at this office. He is another of our farmers who takes a rather pessimistic view of the cotton crop prospect outlook; he says the plant is not fruiting as it should be. However, his feed crop is fine and he was rather dreading the cutting of his cane—he says the cane is so high that there is danger of it falling on him, and then, too, the work of handling it is not relished by him.

Hay Wire. Holloway Bros.

Ben Riff was in town Thursday afternoon and dropped into this office. He is not addicted to the cotton habit, even 30 cents cotton not appealing to him. He says the high wind of June 1st would have made a storm cellar look mighty good to him. His hair hasn't yet quite got settled down to its normal place and it's a pretty safe bet that another breeze or two like the last will prove a great incentive toward his preparing a place of safety. However, beyond a good scare, the blow did no material damage.

RHODES GRASS.

By FLETCHER DAVIS,
Agent of the State Department
of Agriculture.
(In the Southland Farmer.)

Rhodes Grass (*Cloris gayana*) is a native of South Africa. It first attracted the attention of Cecil Rhodes when he discovered it growing on a cultivated farm and developed it from the wild plants growing in its native state. It received its name from its discoverer. From South Africa it was carried to Australia and New Zealand where it plays an important part in the live stock and farming of these countries. Most of the seeds planted in this country are imported from Australia. It was introduced into America about 10 years after its discovery in Africa and was first grown in Texas. Here it attracted considerable attention under the local name of East Grass. In 1912 the grass was introduced into the Gulf Coast and lower Texas Valley sections of Texas where seeds obtained from the United States Department of Agriculture by H. H. Harrington, Agricultural Agent of the Gulf Coast Railway. It has proven its adaptability to the climatic conditions of much of South Texas country.

It is grown successfully on various soils, but is at its best on a heavy loam. It has shown strong resistance to the white alkali with some South Texas soils are irrigated. It is grown extensively for a hay crop and as a pasture and some remarkable claims are for its wonderful yielding capacity. A farmer in Wilson county produced 13 tons from one acre under irrigation in 1918. Some equally remarkable claims as to its grazing value are recorded. A case in point is where a large Valley farmer near Midland planted three acres in this grass in 1915. He turned nine head of cows, seven mules and two horses on July 25th, just one month from the time it was planted, and pastured it continuously with most of this stock July 7th, when he mowed four choice hay from the same three acres.

The grass was still being used in January 1919, and was in excellent condition. In sections where the temperature does not fall below 18 degrees the grass is perennial. Where the temperature is below 18, or remains that low for a considerable period, the roots of the grass are likely to be killed. In some instances are on record where

when the grass had not been cut or grazed too low, it has withstood a temperature as low as 12 degrees without being destroyed. The grass, after having the top killed by frost, will respond to returning warm weather with a new growth within a week or two. It propagates itself from seeds and by stooling and from runners from the parent plant. The runners are sometimes as much as six feet long and roots form at each joint. It is a drought-resistant plant, withstanding long periods of drought and responding with a quick and luxuriant growth to returning favorable moisture conditions. It is very responsive to irrigation and produces its greatest yields where it can be watered at frequent intervals as conditions require. It grows in a fine upright stem, with numerous long fine blades and a branching or spiked seed-head. The seeds are very small and are encased in a thick but light husk or covering. They weigh about seven pounds to the bushel. Under favorable conditions the grass spreads rapidly and soon forms a thick sward. The grass is rich in protein and produces a very high quality of hay.

The only objection the writer has heard urged against Rhodes Grass is the difficulty of securing a good stand. Frequent failures are reported on this score. However, a poor stand at first frequently spreads, under favorable conditions, so rapidly that before the first season is passed the ground is well sodded. The soil should be well prepared, thoroughly pulverized and firmed, and as moist as possible and permit proper working at sowing time. The seeds, being fine and light, require little covering. A light drag or packer is best used for this purpose. A good plan is to cover the seeds with a light brush drag and follow at once with a light roller to firm the surface soil. The baby plants are very tiny and delicate and for that reason need a warm, moist soil. Do not plant in a cold soil; give it time to warm up. Moisture conditions must be maintained as nearly ideal as possible until the roots of the plants have had time to strike deeply into the moist soil below. Rhodes Grass should not be seeded on foul land. The soil should be worked until the weeds and grass are destroyed before seeding to this crop. Where water is available for irrigation it can be sown any time except in mid-summer or mid-winter. Extreme heat or extreme cold will effect injuriously the germination of the seeds and the life of the young plants. For dry land farming it should be planted only under the most favorable weather conditions and when you can reasonably expect cloudy weather and frequent

showers. Seeds can be purchased of the dealers at from 50 cents to 75 cents per pound. Ten pounds per acre is regarded as an ample seeding. Where once started from the seed, it can be rapidly propagated by planting the runners, laying cuttings in furrows or drills two or three feet apart and covering lightly. They will sprout out from each joint and soon establish a stand if weather conditions are favorable. The crop requires no cultivation and one careful plowing in dry, hot weather, turning out all of the sod, destroys the grass. There are no indications that it will ever become a weed pest as it does not spread by underground root-stocks as Johnson Grass does.

Chemists pronounce it rich in protein, a chemical analysis of a well matured plant, made in 1918 by Dr. G. S. Fraps, State Chemist, showing the following content: Moisture, 7.04; Ash, 5.48; Protein, 8.24; Crude Fibre, 33.78; Nitrogen - Free Extract, 43.81; and Fat, 1.65. This analysis shows it to be richer in protein than any of the other grasses commonly used for hay and pasture. It, therefore, requires less Protein - containing concentrates to balance the ration than the other grasses. Practical farmers who have tested it in a practical way regard it as the equal if not superior of Bermuda as a pasture grass and of Sudan as a hay grass. It should be cut for hay about the time the greatest number of spikelets, or seed-heads, are coming into bloom and before many seeds have formed.

Plant a few acres of your cotton land in this valuable grass and diversify with live stock, thereby making more money and maintaining the fertility of your soil.

H. E. Haass, Attorney at Law, Surveyor's Office, Courthouse, Hondo, Texas. All legal matters carefully attended to, in all courts of Texas. Manager Medina County Abstract Co.

WAR WORKER ADMIRE CAR.

Manufacturer Congratulated by
Mrs. Ballington Booth, Head
of Volunteers of America.

The Car Loaned Her by Gen. Pershing
Never Flattered on Hazardous Trips.

Among the numerous letters of congratulation received by Dodge Brothers on the performance of their 14,000 cars serving with the American army, there is one in particular which the manufacturers especially prize. It was written by Mrs. Ballington Booth, one of the chiefs of the Volunteers of America, the organization that ordered itself to the American doughboys for its splendid welfare work in the European war.

The letter, which is in most respects similar to hundreds of others commenting on the service given by Dodge Brothers motor car, is as follows: "Several times, while traveling through France and Germany, I was inspired to exclaim: 'I really must write to the Dodge Company when I get home and tell them what I think of their car.' Now that I am home that intention has not weakened. I have spent the whole of this winter in France and Germany amid the mud and rain and shell-torn roads of the battle front, and later over the steep mountains and through the narrow gorges between Luxemburg and the Rhine.

"Gen. Pershing gave me for my use while I served the A. E. F., a Dodge car. With my little company of entertainers I was enabled to go to many of the boys in isolated spots who had no transportation to send for me and would have gone without entertainments had I not had my car. We traveled hundreds of miles, sometimes over almost impassable roads. We scaled mountains, where at every minute we had reason to fear that our little car might balk at further pressure. But we never had a minute's trouble. I can say most emphatically that the Dodge gave splendid service and held out where we have found other cars disabled by the roadside.

"When my service with the army was through and I had to return the car to them I felt as if I was parting with a personal friend and wished that it could run me down to Brest and be taken aboard the transport and sail for home with me.

"From what I have heard many sources, I believe that others have had just as successful experience with the Dodge at the front as we have had." The cars that served in the army were of standard specifications, precisely like the Dodge Brothers motor cars that are being built day after day for domestic and foreign markets.

For particulars about the Dodge car call, phone or write

A BIG DANCE

Will be Given at the
Hondo Auditorium
FRIDAY NIGHT
JUNE 20th
A Splendid Band will Furnish the Music
Everybody Invite
ADMISSION:
Gentlemen .. \$1.00 Ladies .. FREE

WHAT ONE CLASS IS DOING

Ten per cent of the weekly collection of the Loyal Men's Class of the South Dallas Christian Sunday School is put into a sinking fund by investing it in War Savings Stamps. The accompanying picture of the Class was taken Easter Sunday in celebration of the winning of an attendance contest over every other class in the school.

The Class has an active War Savings Society and meets every other Tuesday night. The Class also pays a regular amount toward the support of a Home for Aged Persons and is active in all lines of church work.

What this Class has done, others can do. The Sunday School Class which is also a War Savings Society is laying up money which may be needed at any time and which can always be secured—with interest—on ten days' notice to the postmaster.

Have you bought your Thrift Stamp today?

Entered at the post office at Hondo, Texas, as second-class matter.

SATURDAY, JUNE 14, 1919.

Savings Campaign Is Boon To Women

The average family in Texas, Louisiana, Oklahoma and New Mexico is not wealthy enough for the "lady of the house" to have all the little conveniences she wants. Through Thrift and War Savings Stamps, however, the Government has provided a way for the housewife to fit up her kitchen, paint the house, furnish her spare room or embellish the parlor.

Those women who were so wise as to begin saving systematically early in 1918 have nice little sums invested in War Savings Stamps by this time. Eleven War Savings Stamps, some of which cost as little as \$4.12 apiece, will buy a first class kitchen cabinet. In many instances, the housewife would not have saved anything to speak of, had it not been for the War Savings Stamps.

Some of the banner Savings Societies in the Eleventh District are in women's clubs or church societies. Women are quick to grasp the benefits from habits of Thrift. Numerous reports have been received at District Headquarters of the Savings Division at Dallas of women who have started in by putting quarters in Thrift Stamps and who have been enabled to buy desired articles to brighten up their homes. As soon as a War Savings Stamp is bought, it begins earning more money. War Savings Stamps are ready money. They are redeemable with accrued interest at the post-office on ten days' notice, but the longer they are held, the more money they make for their holders.

Have you bought your Thrift Stamp today?

—W.S.S.—

Teething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the body uncomfortable. The best help you can give the little sufferer is McGEE'S BABY ELIXIR. It corrects your stomach, cools and quiets the bowels and helps digestion. Sold by W. H. Windrow.

They are sick that surfeit with too much, as they that starve with nothing.—Shakespeare.

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply BALLARD'S SNOW LINIMENT. Rub it in gently on the affected parts. It relieves itching instantly and a few applications removes the cause thus performing a permanent cure. Sold by W. H. Windrow.

Foundation of Brotherhood.

"The doctrine of the Brotherhood of Man is a beautiful dream, but it remains forever the baseless fabric of a dream, unless it is founded upon the deepest of all realities, the Fatherhood of God. To better our social conditions we need close thoughts, careful study, a diligent application of the best methods, but at last without faith in the eternal foundations there can be no final adjustment of social difficulties, and all earthly wisdom is but as sounding brass and clanging cymbals."—Dr. Samuel Smith.

A regular morning operation of the bowels puts you in fine shape for today's work. If you miss it you feel uncomfortable and cannot put vim in to your movements. For all bowel irregularities HERBINE is the remedy. It purifies, strengthens and regulates. Sold by W. H. Windrow.

Prepared.

A train, running on a line which had achieved an unenviable notoriety for slowness and unpunctuality, after losing considerable time in a short journey, suddenly stopped in the midst of fields. "Guard!" shouted a jovial passenger, "may I get out and pick some flowers?" "Afraid you won't find many about here," said the conductor, good-humoredly. "Oh, there'll be heaps of time," replied the jovial passenger. "I've brought a packet of seeds."

Children that are affected by worms are pale and sickly and liable to contract some fatal disease. WHITE'S CREAM VERMIFUGE expels worms promptly and puts the child on the road to health. Sold by W. H. Windrow.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

A WORD WITH WOMEN

Valuable Advice for Hondo Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

Help the weakened kidneys. Don't expect them to get well alone. Doan's Kidney Pills have won the praise of thousands of women. They are endorsed at home—Read this Hondo woman's convincing statement.

Mrs. C. N. Brown, Hondo, says, "About a year ago I was troubled with my kidneys and had a terrible backache. I suffered from a dull, heavy pain in my kidneys all the time and my hands would feel numb. I was awfully dizzy at times and felt tired and worn out and had no ambition, and my kidneys didn't act right at all. I bought a box of Doan's Kidney Pills at Windrow's Drug Store and they cured my back. I am now as well and strong as ever."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brown had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

The First Thousand Is Hard To Get

When a man gets \$1,000.00 saved up there are always opportunities for a good investment. It is hard to place much less than that. That is why wealthy men who are self-made advise young men to begin early and save the first thousand.

Until we went to war, it was hard to get started toward that \$1,000.00 unless at least one dollar could be put away at a time. Small change was restless and acrobatic and kept jumping out of our pockets into somebody else's.

Now, however, there is an easy way to get that first thousand. The answer is Thrift Stamps. They cost only a quarter apiece and can be converted into War Savings Stamps. The Government of the United States backs these War Savings Stamps with a guarantee of 4 per cent interest, compounded quarterly. Save and Succeed.

Have you bought your Thrift Stamp today?

—W.S.S.—

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Sold by W. H. Windrow.

Snakes in the Ocean.

There may or may not be such a thing as a sea-serpent, but there certainly are snakes in the ocean. There are numerous varieties of small snakes that live in all oceans; then there are the eels, of course, which go from the salt water to the fresh. In the waters around southern Asia there lives the banded sea snake, which has stripes around its body and broad tail, and can swim with great speed.

KILL the BLUEBUGS and all blood-sucking insects by feeding Martin's Wonderful Blue Bug Killer to your chickens. Your money back if not absolutely satisfied. Ask W. H. Windrow. 43-6m

Yellow Fever Mastered.

Reports from Ecuador indicate that Doctor Noguchi, the famous Japanese scientist, who is at present in that country, has isolated the bacillus which causes yellow fever, and has prepared an anti-serum conferring immunity on those exposed to the disease. The discovery is being tried out on Ecuadorian troops in the fever interior.

The conquest of yellow fever is one of the important achievements. In the Canal zone the first steps were taken; the fever was banished by sanitation. But proper sanitation is an extensive process and is impracticable in sparsely settled regions. So Doctor Noguchi's discovery comes to give a needful coup de grace to the old villain, yellow fever.

Their War Aims.

The Boche was a typical wide foreheaded Boche, with big horn-rimmed spectacles and a larger rotundity. It was possibly that rotundity which had prevented him getting away with the others when the British troops scared off the German party that was trying to cut their wire. He was a valuable prisoner, too, for he spoke English like a native. He had been, he told them, a professor of German in England for many years.—Capt. R. F. W. Rees.

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, 30c.

Died.

Emma Burell died at her home in the old Jos. Burell home on Friday evening after a paralytic stroke on the evening. Deceased in March 1862, consequently had entered her fifty-third year at the time of demise. She leaves four brothers, two of whom and a large number of other relatives to her untimely demise. The funeral was tenderly laid to rest in the St. Louis Cemetery on Saturday afternoon. Rev. Heckman performed the rites. A large cortege followed the corpse to the resting place. We join sympathy with the bereaved and the stricken ones. R. I. P.

Castroville can soon boast of a new Vance and son of De-vere Castroville visitors on Saturday afternoon.

A number from here attended the funeral of the late Hoffmann at Helotes. Hoffmann was a stepson of Capt. L. W. and F. Hoffmann and counted his scores here. We join sympathy with the bereaved and the stricken ones. R. I. P.

Steinle made a business call on Orange Grove Friday, returning Sunday.

A dance given at Wernet's House Sunday night was attended and very much enjoyed. The best of order pre-

Hoog and family of San Antonio spent several days of the week with kinfolks and in our midst.

Heyen was here from several days this week.

Burrell and family attended the funeral of the late Hoffmann at Helotes on Saturday.

Mrs. Harry Haycock and her children of San Antonio and Mrs. Louis R. R. were here one day this week.

Anne Schmidt and her children were shopping Thursday.

Mrs. Frank Burrell attended the funeral of Mr. Hoffmann at Helotes.

Hynes of San Antonio was here Sunday.

Mrs. Ed. Meyer of Helotes, Texas, spent Sunday with Mr. and Mrs. Joe R. R., Jr., and Mr. and Mrs. Kempf.

Mrs. Jake Koch and his daughter of San Antonio were here Sunday with Mrs. R. R.'s mother, Mrs. Armin.

Mrs. Henry J. Schott and her baby of Biry were here Sunday.

Mrs. Fritz de Grodt and Mrs. Herman Koch and their little son of Hondo spent Sunday here.

Mrs. Louie Mehr and her children visited Mr. and Mrs. Mike Franger near Mac-Monday.

Mrs. Clara and Annie Rihn of San Antonio spent Sunday here.

Lucile Tschirhart spent several days at Biry.

Mrs. C. B. Noonan left Sunday for her home in San Antonio.

Mrs. Chas. Marty and two small children of San Antonio are here on a visit to relatives for several weeks.

Miss Clara Jungmann is visiting relatives in Lacoste.

Miss Annie Haby spent several days with Mr. and Mrs. Chas. J. Rihn at Pearson.

Mr. and Mrs. John Tschirhart and children of Burnett, Texas, spent the week here with Mr. and Mrs. Pete Groff and other relatives.

Tom and Archie Schuchart and sister, Miss Gladys, and Miss Julia Winkler of Cliff were here Sunday evening.

Mr. and Mrs. J. C. Cobb and Mr. and Mrs. Allen LaCarty of San Antonio were here for the dance Sunday night.

Mr. and Mrs. Mackenfous and daughter, Miss Hazel, of San Antonio were here Sunday evening.

Mr. and Mrs. August Koenig and Mrs. Mollie Hans and son, Harry, attended the funeral of the late John Hoffmann at Helotes.

Quinn Ney, Chas. Gilliam, Raymond Koch, Shortie Hollaway, Marion Davis and Arthur Ney were here from Hondo Sunday evening.

Sham and A. G. Hollaway and sister, Miss Mabel, and Misses Lorine and Clara Decker of Hondo attended the dance here Sunday night.

Mr. and Mrs. Frank Steinle of San Antonio and Miss Annie May de Montel of Camp Verde were guests of relatives and friends here Sunday.

Edwin, Alex and Robert Belzung and sisters, Misses Mary and Pauline, of Cliff were here Sunday evening.

Louie Mangold and Frank Keller left Monday for Galveston.

Emil Zuberbueller and family of Comstock are here on a visit to relatives and friends.

Henry Steinle, Robert Rihn and family and Miss Cecelia Steinle visited relatives at Pearson this week.

Edwin Wurzbach and sisters, Misses Clara and Edna, of Loma Alta ranch were shopping here Saturday.

Mrs. Louisa Kilhorn and two little daughters, and Joe Renken and little son, of San Antonio, spent Sunday here.

Mrs. Louis Ahr received a telegram Saturday that her son, Lawrence, who is with the 90th division, had landed at Newport News.

Miss Amanda and Miss Minnie Wurzbach of French Settlement were shopping here Thursday.

Mr. and Mrs. Louis Mangold, Sr., and family were San Antonio visitors Wednesday.

Mrs. George Haass and daughter, Miss Louisa, of Noonan, were visitors here Wednesday.

Mrs. Wm. Rihn and Misses Gertrude and Alice Rihn, and Wm. J. were San Antonio visitors one day this week.

Mrs. Lena Burger and daughter, Miss Lenora, were shopping here one day this week, from Bader Settlement.

Mr. and Mrs. Oscar Steubing, Gabe and Clarence Haby, Otto Wurzbach and family were here from Cliff Sunday.

Mr. and Mrs. E. B. Haegelin and little daughter of Yellow Banks were here Sunday.

Miss Evelyn de Montel and Albertina Hornung, of Hondo, visited here Monday.

Mrs. Henry Tschirhart is on the sick list this week.

Mr. and Mrs. Adolph Haby and Mr. and Mrs. Wm. Burger, of Dunlay, spent Sunday here.

Mr. and Mrs. Adolph Haby, and Mr. and Mrs. Wm. Burger, of Dunlay, spent Sunday here.

Mr. and Mrs. Louis P. Ihnken, and Mr. and Mrs. Gerhart Ihnken, of Noonan, spent Sunday here.

Mr. and Mrs. Robert Koch and two children, of Hondo, were guests of Joe and Wm. Brieden and families Sunday.

Miss Marguerite Holzhaus was here from San Antonio Sunday.

Henry Wurzbach and family were here from Cliff Sunday.

Mrs. Jos. Keller returned from San Antonio Saturday.

Mrs. Walter Koehler and Mr. and Mrs. Robert Keller, of San Antonio, spent Sunday here.

Mr. and Mrs. Herbert Weynand of Hondo chaperoned a truck load of young folks at a picnic here Sunday.

Mrs. Terano and children and Mrs. Burrell and Mrs. Henry Rhenken of San Antonio were here Saturday.

Mr. and Mrs. Chris. Schuchart received a telegram that their son, Raymond, who is with the 90th Division, Army of occupation, has landed in the good old United States.

Johnnie Belzung sends a telegram to his parents, Mr. and Mrs. Eugen Belzung, that he has landed in the United States.

LaCoste Ledger Laconics.

Miss Kathleen Lynch from Hondo was visiting with W. H. Hawkes and family Sunday and Monday.

Dr. L. A. Koontz left here Saturday for Camden on Gauley, West Virginia, where he was called to the bedside of his mother who is reported very sick.

The infant son of Mr. and Mrs. J. L. Mechler was christened in St. Mary's Church last Sunday. Ralph Clovis were the names given the child. The sponsors are Julius M. Groff and Miss Josephine Mangold.

Mr. and Mrs. Ed. Geyer and baby from Pearsall visited relatives here and at French Settlement Sunday. They were accompanied home by Mrs. Catherine Stein, who will stay with them for several months.

Chronic Constipation.

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

Devine News Items.

Supt. W. N. Saathoff and daughter, and Miss Weynand, of Hondo, attended the commencement at Devine.

Mrs. Fannie Tilley is home from a visit to Hondo, where she witnessed the graduation of a grand daughter from the Hondo High School.

J. H. Ney was here from D'Hanis Saturday and conveyed his family back home. He says crops are very fine out in his part of the county.

Lame Back Relieved.

For a lame back apply Chamberlain's Liniment twice a day and massage the muscles of the back over the seat of pain thoroughly at each application.

Sabinal Sentinel Siftings.

Mrs. A. F. Reinhart went to Uvalde yesterday on a visit.

Mr. John Gibbons of Knippa made a business trip to D'Hanis Saturday.

Weekly Health Talks

What Doctor Pierce Has Done For Humanity!

BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloes, root of jalap—things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constipated. If you are constipated, by all means go to your druggist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

Farming for Profit.

BY SAM NEEL.

Farming for profit is carried on by the few. Most farmers are satisfied to make a bare living and the pleasures of life are unknown to them.

To farm for profit calls for the best judgment in all that appertains to farm life and work. The farmer who is making a small living needs to study the conditions that bring this about. Hard manual labor is not the remedy and is often labor miss-applied.

Labor together with the combined elements of study, forethought and action will greatly remedy the cause of poor results.

Crops must be planted that will supply the full means of the farm. A farmer who does not grow sufficient food for his wants under ordinary conditions lacks business principles.

The fertility of your soil must be considered and what is lacking should be supplied.

We are too apt not to change our methods so as to increase production for want of practical knowledge. Much of this knowledge can be acquired by reading what is published by agriculture departments of States and colleges and by attendance upon farmers' congresses and instructive work. Farm work well planned, covering every feature of farm work should be remunerative.

Farmers as a rule stay at home too much, as by observation and travel much can be learned that will help.

Agricultural literature should form the basis of the farmers' library.

A good business man studies the features of his business. Why not the farmer?

The cost of growing any given crop should be estimated, and knowing the cost you can estimate the value of the product and what it should bring on the market.

The preparation of your soil is the foundation of success. Plants grow, develop, and mature their fruit just in the proportion to available food at their disposal. This food may be acquired from the air, from the soil or by application of fertilizers, but in all cases the soil must be in a proper cultivation so that plants may secure this food.

Air and water are the essential elements in the development of plant life. Tillage promotes the work of these agencies and as a result influences the growing of plants, thereby affecting the development and quality of fruit.

High priced products do not always mean profitable returns to the farmer. All soils are not alike beneficial to all crops. These conditions require study.

A farm should be planted to such crops that are the least expensive to grow and give the best returns.

The human family and the animals that we require for our use demand food three times a day, while the products of the cotton crop have not such an extended use.

The world to-day demands food products and failing to raise the crops to meet this demand causes the high cost of living.

Profitable farming will occur more generally on small areas well cultivated than on extended areas.

Concentration of labor is always profitable.

Our farm methods may have been suited to the value of farm lands years ago, but the present advanced price of land demands greater returns from the farm.

The farmer of today must be a good business man because he is confronted with conditions unknown to the farmer of the past. By study and proper application of intensive farming our yields can be increased to a very great extent.

To keep up farm values the farmer must progress. He must be master of the situation and apply himself to make his calling the most honorable and profitable business that can be undertaken by man.

To Prevent Belching.

Make a regular habit of eating slowly, masticate your food thoroughly, and you may have no further trouble. If you should, take one of Chamberlain's Tablets immediately after supper.

A copy of the peace terms is now in the hands of each senator in Washington. The government printing office furnished 35,000 copies in a few hours after the original document arrived from France.

Stomach Troubles.

If you have trouble with your stomach you should try Chamberlain's Tablets. So many have been restored to health by the use of these tablets and their cost is so little, 25 cents, that it is worth while to give them a trial.

Germany's colonial possessions in Africa, before the war, amounted to over 13,400,000 square miles.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that they may be relieved by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results.

70,000 telegraph and telephone operators in the country intend to go on strike if their demands are not granted by Wednesday, June 11th.

San Antonio projects a bond issue for \$3,700,000 for municipal improvements.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. NATIONAL BANK OF COMMERCE, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadersville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak."

I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. J. C.

INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you

should. Belching, sour stomach and bloating are symptoms of indigestion, and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition. Chamberlain's Tablets are also excellent for biliousness. Sold here at 25c.

BUILDING UP OUR WOMAN

Given Up to Die by Her Fr
Young Lady Recovers
Health and Increases
Weight—45 Pounds.

A Powerful Nation Needs 8
Healthy Women.

A nation is no stronger than its women. Hence, it is the duty of every woman whether young, middle age, or in advanced life to preserve her health. If you are sick and suffering don't wait until tomorrow but seek relief at once—today. Tomorrow your illness may take turn.

There is a remedy for every ill. Thousands have Peruna to be that remedy. Miss Clara Lohr of 21 N. Gold St., Grand Rapids, Michigan, writes a friend: "I don't need Peruna any more. I am all well after taking six bottles. I weighed ninety pounds before I started and was poor and weakly. I had such a cough and spitting all the time that I never expected to recover. My friends gave me up. I could eat nothing. Now I can eat and weigh 135 pounds. I most thankfully recommend Peruna to my friends."

Miss Lohr's letter is an inspiration, a message of hope to suffering women. It tells you that you too may be strong and well and vigorous.

Peruna may be had in either liquid or tablet form. Ask your dealer. If you value health, do not accept a substitute. Dr. Hartman's World Famous Peruna Tonic is what you want. The Peruna Company, Dept. 79, Columbus, Ohio, also publish Dr. Hartman's Health Book. The book is free. Write for it. Your dealer will give you a Peruna Almanac.

Indications are that peace will be signed soon, as Lloyd George and Wilson are in favor of making the terms more acceptable to the Germans.

The Austrian peace delegation declares the allied terms for Austria impossible. The present Republic of Austria contains about 6,000 square miles with 5 or 6 million inhabitants.

The "Rhine Republic" did not exist long enough to make a change of the map. The people of the Rhineland did not follow the aspiration of a political quack, Dr. Dorden, the leader.

PERCY TYRRELL, MANAGER.

RECORD IS KEN BY TANLAC.

Sales Sold In Four Years Would
Reach From New York
to Denver, Colo.

Four years ago very few people had heard of Tanlac—Today it is the largest sale of medicine in the world and is as big in Canada as in this country. In a brief period of only four years this now famous remedy has gone from obscurity to the very top of the list. Its fame in fact, has spread beyond the continent, and numerous countries are now being supplied with Tanlac. People, however, fully realize the wonderful record of Tanlac. Indeed, if it were not for the fact that it is a question of fact and not of opinion, it would be the largest and best selling firm of the country. Success would be hard to come by.

At first, the total sales of Tanlac amounted to approximately 100,000 bottles. The demand is increasing, for during the first ten weeks of this year over one million bottles were sold and distributed in the United States and Canada, the exact figure being 1,396,186 in three months.

At this rate, therefore, the sales for the present year will amount to more than five million bottles. This will mean that 17,000 bottles of Tanlac will be sold during every day of the year, or 100 bottles for every hour of the average working day.

These figures are too stupendous for the average mind to grasp, but one may visualize what twelve million bottles mean by imagining them laid out in a single file end to end. Thus laid they would make a track of Tanlac from New York through Chicago, and on to Denver, Colorado; or they would form a double track of Tanlac from the Great Lakes to the Gulf of Mexico. Piled end on end they would tower 135 times as high as Pikes Peak, or rise 13,333 times higher than the Woolworth Building in New York, the tallest building in the world.

The demand for Tanlac has become so great that its sale instead of being measured by the gross as other preparations have been, is now reckoned by the carload, and even by the train load. In proof of this it is a noteworthy fact that the leading druggist jobbers everywhere now buy Tanlac almost exclusively in car load lots. To supply the Pacific Coast trade alone requires from forty to fifty car loads per year—Jobbers of the Middle West are selling from seventy to eighty cars per year.

The well known drug firm of Hessig, Ellis Drug Company of Memphis, Tennessee, has sold over forty car loads since the introduction of Tanlac in that state four years ago.

Within the past ninety days, ten car loads of Tanlac have gone to supply the demand of British Columbia, Saskatchewan, Alberta and Manitoba, Canada.

The Owl Drug Company of San Francisco, the largest retail druggists on the Pacific Coast, state they have sold more than 130,000 bottles at retail, which surpasses the remarkable record of the Jacobs Pharmacy Company of Atlanta, who have sold approximately 100,000 bottles at retail.

Tanlac is composed of the most beneficial roots and herbs known to science. The formula complies with all national and state pure food and health laws of both the United States and Canada; and absolute merit and merit alone is responsible for its phenomenal and unprecedented success.

Tanlac is sold by leading druggists everywhere.

Soldier Letters.

(Continued from front page)

just got back from the front. They were so poor and wounded they were hardly able to get up. We stayed at this place from Aug. 14th to Sept. 5th. I spent my birthday there; had some time that day. We left that place Sept. 5th at 3 o'clock and had to ride in these old French Box cars for 2 days and nights and then stayed at a town named Traveray. We stayed there from Sept. 7th. till Oct. 1st. and then got on those D— old box cars again for another day and night, then arrived at a town named Bour Bonne Les Bains, but this town isn't as big as its name. And there we were all together again and stayed there the remainder of the time. We always had from 500 to 2000 head of horses and mules to attend to. Lots of them had shrapnels in them and were operated on but most of them had sore feet and could hardly walk from going without shoes for a long time. Well, from then on us H. soldiers had all the shoeing we could do. Some of the poor devils would try to kick but they were so weak we would have to help them up again.

On Nov. 11th. the Armistice was signed which everybody knows and of course glad of it. We found it out at 2 o'clock. All the church bells were ringing and flags put out all along the Streets and all the frogs in town had a big parade. Everybody that was able to walk was along. Some old women who looked to be 200 years old were in the parade. And all they yelled was "Finish Lager".

We all thought that we would be home in about 3 months but we guessed wrong. We got the horses from the other Hosp. and Remounts from then on and had to spray everyone and also put them through a gas house, this was done to cure the mange, which every one had. After they were fed up for about six weeks they were sold to the French men.

We were all living in French buildings till Feb. We then had to move into Barracks which were all new for our Co. and also had a big mess hall there where we got our corn, beef and beans 3 times a day. This kitchen was big enough for 300 men to eat in. We also had some amusements in the Y. M. C. A. but it was about a mile from where we were so we didn't go very often, and at 9 o'clock everybody had to be in bed and had to get up at 6 a. m. and get breakfast and go to work, every day alike.

On March 16th President Wilson's daughter came to this town to the Y. M. C. A. and sung several good songs for the soldiers. This hut was filled up with soldiers and all around the building. Everybody was pleased to see the President's daughter, something big, (and she sure is big).

On March 24th we all had to pack up (troubles and all) and march to a big field about 3 miles from our place and lined up and at 11 o'clock General Pershing came along and inspected everyone and then gave us a nice talk. Well satisfied we then marched back to work.

Well, I heard lots about being at the front and going over the top. The closest I ever was was about 8 miles. But I did go over the top once, but it was from a kicking horse and I tell you this son-of-a-gun did pitch some. I grabbed for leather but couldn't get any hold so he threw me and broke my leg and I have been in the hospital ever since. I was operated on the same day but am not able to work yet.

I am in the good old U. S. A. again. Left Brest, France, May 16th. and landed at New York May 21st. and was unloaded and taken to a hospital. It certainly was a swell place, and had all kinds of good things to eat and good attention. I stayed there 3 days and was then shipped to Ft. Reilly Kansas. Was on the train for 3 days and nights—but this was a real train. I am now at Ft. Reilly, Kansas, for treatment and will be here for 6 weeks or more as the Dr. said I would have to stay here until I am able to work. My leg is in plaster cast. I am going to try to hop around as soon as I can get a chance to slip away without the nurse seeing me, ha. Well, I am feeling fine and hope to be out there before long.

This is about all I know for this time. Guess the editor will have a job to print this but I hope to read it in the Anvil Herald some day. Hope all the homefolks are able to kick about and are enjoying the best of health and furthermore I hope to be with all soon. I will be glad to get a letter and get all the news from out there and if anybody wants to write here is my address

HENRY G. BOEHLE,

Ft. Reilly,

W. A. L. 64. Kansas.

P. S. O yes I want to tell you a little joke on a boy that came to the hospital today. He came in the hospital and the nurse put him to bed and asked him: "Say Buddy, have you pajamas?" The boy said, "No nurse I have Pneumonia," ha ha.

With best regards to all. If anybody wants to know anything about France just wait till I get out there, I will then tell you all I know. But don't anybody ask me to work for a while as I worked enough in France.

H. B.

"BAYER CROSS" ON ASPIRIN

Always Ask for Genuine
"Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Medina County, Greeting:

You are Hereby Commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Medina County, a copy of the following notice:

THE STATE OF TEXAS.

To all persons interested in the Estate of George Carle, Deceased, No. 918. Mrs. Nettie Carle has filed in the County Court of Medina County, an application for the Probate of the last Will and Testament of said George Carle, Deceased, filed with said application, and for Letters Testamentary of the Estate of said George Carle, Deceased, which will be heard at the next term of said Court, commencing on the 1st Monday in July, A. LEMONS WHITEN AND

BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

The Doctor Away From Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.
